# SOLID WALL SEPARATOR

- It is non-yellowing, lightweight and highly impact-resistant.
- For added durability, our wall panels are fixed to the anodised extruded aluminum channels with a silicone wick.
- Solid wall dividers creates privacy
- When used as Check-In Barrier, they are perfect for any medical facility right at the reception area. In hospitals, primary care facilities, and dentist offices, clear room dividers act as a line of defense from infectious diseases spreading to either medical staff or patients.
- Since these dividers are freestanding and portable, they can easily be moved to different areas of the facility as needed.
- They are stackable, taking less space when not used.
- Optional accessories available: rolling wheels, wall plugs, straight connector or 90 degree connector.
- Frame Material: Extruded and anodised aluminum.

- Frame Finish: Black powder-coat paint, silver anodised or white powder-coat paint.
- Easy to clean. Clean with substances that contain alcohol.
- Simple assembly in few minutes by single person. Installation can be undertaken.
- Good for use outside with additional weights.
- Suitable for vaccination rooms, hospitals, medical and health centers.
